TSUNAMI RELIEF TOUCH - QUARTELY UPDATE OF TSUNAMI REHABILITATION OF ROTARY INTERNATIONAL DISTRICT 3230

ISSUE - 3 DECEMBER 2006

RED LETTER DAY for RID 3230

WORDS OF WISDOM

Comments of the RI president and RI Director are recorded below.

Rtn. William.B.Boyd

The Tsunami Project of RI Dist.3230 has turned something incredibly bad into something very positive. The Tsunami could have destroyed their life styles but instead through the intervention of Rotary the village and its young people now have greater opportunities to build more productive lives. The village will have other opportunities to earn an income, have better health and to allow their children to choose where they want to earn their living.

The second village of the Rotary Club of Madras presents a different picture. Old homes have been replaced by new and the facilities have been upgraded to the extent that the lifestyles will never be the same again. The ability to earn a living has been enhanced by the new boats, new nets and the cold stor e. The children will have better schooling and the water supply will be a permanent asset.

Two different approaches to the tragedy and both are outstanding.
